

Silent Gliss

ROMAN BLINDS

Elegance and functionality

Roman blinds are an elegant, decorative shading solution. We match this classic look with our high-quality components to deliver systems that operate effortlessly.

Electrically or manually operated, when combined with our tested, flame retardant fabrics, you are assured of a roman blind of the highest quality.

TEXTILE AMBIENCE

By bringing together the highest quality technology with beautiful fabrics you are assured of a blind that makes a design statement.

The Collection by Silent Gliss presents a range of proven decorative fabrics, from sheer to blackout.

WASHABLE

Silent Gliss have developed a unique mechanism that allows the fabric to be removed for washing.

SUSTAINABLE

Silent Gliss products are manufactured within an environmentally friendly, safe and socially responsible framework. We strive for sustainable growth through the harmonisation of economical, ecological and social factors.

MOTORISED OPERATION

The mains wired system can be controlled via a wall switch, handset or our Move App. Solutions for seamless integration into building control systems are also available.

Our battery-operated system is an ideal retrofit solution when mains power to a window is not possible.

MANUAL OPERATION

Our chain- and cord-operated roman blinds offer smooth and effortless operation, even at larger sizes.

The system SG 2305 has an innovative solution to child safety. A powerful magnetic endset separates from the headrail when a weight of 6kg or above is applied to the chain.

Motorisation enhances convenience and control.

Fabrics – beyond decoration

The Silent Gliss Collection sets itself apart by considering both the fabric's texture and technical features. We offer a wide range of styles and colours that balance function and design across all of our window treatment systems.

We include fabrics with special functions such as acoustic performance, superior light management, antimicrobial and environmental considerations. All of our fabrics are flame retardant and have been extensively tested on our systems to ensure consistent hanging behaviour.

Check out the Silent Gliss online fabric finder.

Our exclusive Colorama fabric available in 30 colours and washable up to 72°

Textured fabrics which closely resemble natural fibres but are flame retardant

Dimout fabrics for room darkening

Colorama Multicolour woven with multicolour yarn for attenuated colour and texture
